

The background features a dark blue gradient with faint, light blue circular patterns. On the left side, there is a large, semi-circular scale with numerical markings from 140 to 260 in increments of 10. Several smaller circles and arcs are scattered across the page, some with arrows indicating a clockwise direction. The overall aesthetic is technical and modern.

CURRENT DES INITIATIVES

- Literacy and Numeracy
- Leading learning
- **Inclusion**
- Well-being
- ICT
- Supporting teacher learning

FINDINGS FROM 2 RESEARCH PROJECTS

- Project Iris (Rose, Shevlin, Winters & O'Raw, 2015)
- Example of teacher vulnerability
- Mary a L/S teacher in a rural school in Ireland
 - 'Too many children... not supported enough... not working at their level...'
 - 'We haven't had any whole staff training...'
 - **Preparing teachers to work with pupils with SEN was absent!** 'if we think about the transitions between teachers, it's a bit haphazard at the moment'
 - **RESULT: Vital pupil information is not transferred**
 - **What about whole-school/multidisciplinary input?** 'No its just me...and the class teacher...or if sometimes the parent comes'
- IEPs lacked student voice

2ND PROJECT

- O' Sioráin, C. A. (2018)
 - Complexity of disability within autism classrooms presented challenges to the identity of the teacher as a curriculum developer, many demonstrating technician behaviours (programme driven as opposed to child focused)
 - IEPs were available for all pupils, but lacked individual focus, while a framework was used to detail strengths and needs the quality of content was inadequate
 - Cut and Paste issues, wrong name on and within the profile

REFLECTION

- A cacophony of voice is directed at teachers in special education roles (government policy makers, the inspectorate, unions, and advisors) and learner voice is lost.

THE 'VULNERABLE'

- Florian & Black-Hawkins (2011) Bell-curve thinking = vulnerable learners.
- Shevlin, Winters and Flynn (2013) teacher attitudes,
 - Knowing them, listening, attending, parental aspirations
 - The spaces and places of learners, and especially learners w/sen
 - Relational space – Disability and Ableism
 - Mobility or the lack of

ACADEMIC SUCCESS ↔ SOCIAL, EMOTIONAL & BEHAVIOURAL COMPETENCE

A Continuum of Support

Developing a student support plan is the outcome of a problem solving process, involving school staff, parent(s)/ guardian(s) and the student. We start by identifying concerns, we gather information, we put together a plan and we review it.

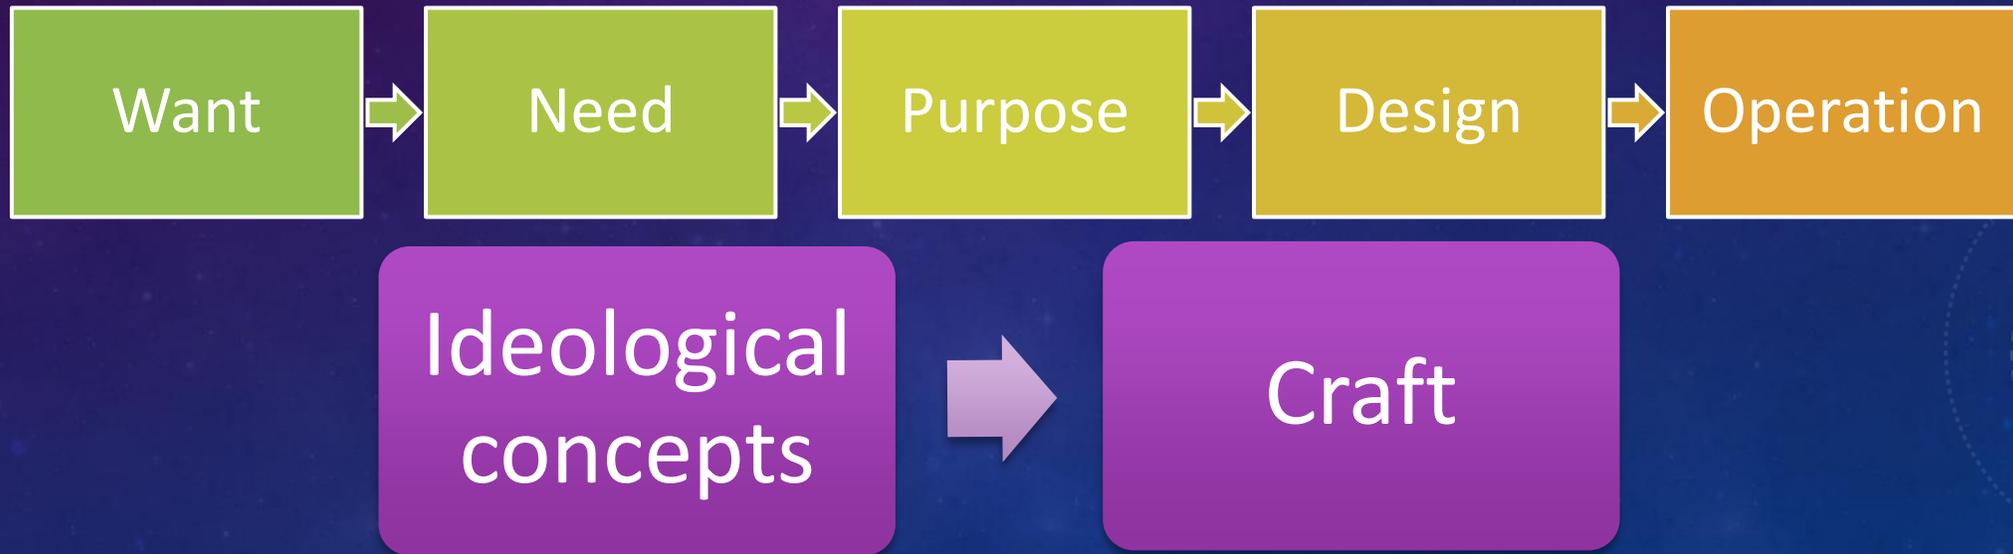

THE NEW MODEL

- A new model – baseline educational profile, before targeting additional resources to those ‘with the greatest level of need’ (National Council for Special Education, 2014, p. 6)
 - **Relies on the school’s professional capacity of knowledge, skills, and competencies and the disability approach to supports**
- Florian and Pantic (2017) maintain that many of the proposed reforms to more inclusive approaches **do not address the preparation of the teacher** to work with the growing diverse needs of learners. In fact, they argue that this lack of attention to teacher education **limits and maintains the idea that ‘special qualifications’ are needed to work with different student/learner groups**

CPD ALIGNMENT – AGENCY AND AUTONOMY

An Cosán TC (2016) promotes a relationship of collaboration, learning processes to include reflection

DEVELOPING AN INQUIRY STYLE TO CURRENT PRACTICE

Thank you for your attention.

**“For the want of a nail the shoe was lost,
For the want of a shoe the horse was lost,
For the want of a horse the rider was lost,
For the want of a rider the battle was lost,
For the want of a battle the kingdom was
lost,
And all for the want of a horseshoe-nail.”**
